### **DETAILED ACTION**

1. Claims 1-4 and 8-19 are pending in the application.
2. Claims 20-27 have been canceled without prejudice by applicants' amendments, filed 12/26/01.

### ***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 and 8-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicants' claims, which are drawn to "molecular compounds" derived from reacting a phenol derivative with an organic compound, is indefinite because applicants have not disclosed any specific chemical structure(s) or name of the said "molecular compound" that applicants intent to claim. Additionally, applicants have not defined a specific organic compound (or clathrate) of which applicants apparently react with the phenol derivative. Thus, the Examiner is unclear as to specifically what "molecular compound(s)" applicants intend to claim.

### ***Response to Arguments***

Applicants' arguments filed 12/26/01 have been fully considered but they are not persuasive.

Applicants argue that the "molecular compounds" of the presently claimed invention are listed on pages 9-274.

This argument is not convincing because the compounds listed on pages 9-274 are the phenol derivatives which applicants apparently react with an organic compound (or clathrate) to produce the "molecular compound".

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
